## Forget-Me-Yes<sup>®</sup> (FMY)

Manages both Organizational and Individual Right-to-be-Forgotten (RtbF), Right-of-Erase (RoE) and Right-to-Deletion (RtD) compliance of Data Subject Access Requests (DSAR).

Meets global Data Privacy compliance for Brazil's LGPD, Europe's GDPR, California Consumer Privacy Act (CCPA), China's (PIPL), Colorado's Consumer Protection Act (CPA), Virginia's and Washington Privacy Act (WPA).

Locates, organizes and manages Data Subject personal (PII) data deletion requests for FMY subscribers in a secure, efficient, and persistent way.

# Forget-Me-Yes<sup>®</sup>

# Forget-Me-Yes® (FMY)

FMY facilitates secure discovery and deletion requests against multiple data sources, ensuring the data subject is never inadvertently “remembered”.

Automated/scheduled compliance enables organizations to avoid regulatory distraction to focus on core business competencies.

Secure, zero-knowledge 3rd. Party audit features ensuring regulatory compliance.

Provides arguable good faith and best practices for companies to avoid litigation, penalties and brand damage associated with bad publicity for non-compliance.

v1.1.1

Data Privacy Compliance

## Forget-Me-Yes® (FMY)

Initial query and deletion from all data record sources

---

Audit log that can be queried with the data subject's identifiers to demonstrate when and where the subject was deleted

---

Re-deletion of the data subject if they reappear

---

Multi-factor authentication and end-to-end symmetric encryption provides 100% data security from initial FMY data ingest to archive

---

Positive impact on organizational IT budget and workloads, while assisting overall regulatory compliance

---

Meet and exceed all national and international Legal compliance requirements as outlined in each corresponding regulation's data compliance guidelines

FMY is available today for Salesforce Org and Shopify datastores.
